1. Two medium and long wave transmitters are under development at Funkwerk Koepenick for delivery to Rumania. Their power is not known. It is believed that the power will be less than 50 k.w. in view of the fact that a total of only 50,000 k.w. was made available for their development. Wolfgang Kruske, Deputy Head of Area (Bereich) I, Transmitter Research and Development, and, at the same time, head of the Department for the Development of Large Transmitters (TLD) is in charge.
2. Kruske, formerly an eager member of the Hitler SS, is now an eager member of the SED. His main function is the maintenance and modernization of East German transmitters. He is conversant with transmitter development although he is not an outstanding expert in the field.
